Even more driving pleasure and comfort with lower consumption – order your 5-speed transmission for EUR 6.850 plus 19% VAT. This campaign will end on March 31, 2011; so quickly fill in the order form and send it to ZF Tradition by post or fax.

ZF can also help when you require replacement for wearing parts: with repair kits which contain both synchronizer sets and bearing and sealing kits. These parts have already been installed i.a. in various Maserati vehicles. For more information, please visit www.zf.com.

Driveline and Chassis Technology

ZF Technology – the intelligent choice: the project S 5-20. Five for four: ZF is producing a unique imitation edition of the historic S 5-20 transmission. You can also obtain parts subject to wear.

Order form

Please send the completed form
by fax or post to ZF Tradition:

☐ Yes, I herewith place a binding order of _____ (quantity) **S 5-20 transmission(s)**

for a Mercedes-Benz _____ (model/type)

**for the unit price of EUR 6.850 plus 19% VAT. I know that the production of the S 5-20 transmission
will only take place if ZF receives a total of 250 binding orders by March 31, 2011.**

ZF will inform me immediately after the order deadline has expired and state whether the required quantity of transmissions has been ordered so that my order can be accomplished. If this quantity is not achieved, the present contract is not effective and my order is disregarded by both parties.
Moreover, the ZF terms of delivery for the supply of transmissions, steering systems, axles, and components apply (effective from October 2002).

Note:

All prices are in euro unless otherwise agreed. They apply to delivery ex works and exclude packaging, freight, postage, and insurance. The applicable, legally specified value added tax (VAT) is added to the prices. Unless otherwise agreed, payment is to be made within 30 calendar days as of the invoice date, in cash without any deduction, ex paying agent of the supplier.

ZF does not perform conversion work such as installation or removal, shortening the cardan shaft, or any other modification. You will find a neutral cost statement on this matter and further information at www.zf.com.
