

## Pagoda SL Group and The Blockley Tyre Company

### 2022 Discount Program for Full Members of The International Pagoda SL Group, Inc.

Your Board of Directors are always on the lookout for ways to enhance your membership experience. Today we announce a program to allow **full members** to receive a discount on Blockley's tires specifically made in the Pagoda's original size of 185HR-14, both in hard-to-find whitewall as well as blackwall.

The program is limited in time (6 weeks or less) and scope (only to full members of the group). Even before this generous discount offered by Blockley, their tires are attractively priced and one of the few tires that are the *exact size* as the originals and with the appropriate look as well.

Both BW and WW tires are in stock with a limited supply. The next inventory will be priced higher. Thus, we urge you to take advantage of this special offer now.

**Blockley 185HR-14 Whitewall: List price £165. Member Special 20% discount = £132 each.**

**Blockley 185HR-14 Blackwall: List price £125. Member Special 10% discount = £110 each.**

At today's exchange rates the Whitewall price of £132 is approximately USD \$180 and €157 respectively. The Blackwall price of £110 is approximately USD \$150 and €131. Shipping, VAT, taxes, duty are extra.

See details of the tire here: <https://www.blockleytyre.com/product/185hr14-white-wall>

Every one of these 185HR14 Blockley tires is inspected and checked for dynamic balance - The small painted yellow circle on the side wall can be aligned with the valve stem by the installer so they know the optimum position to place it. They perform this additional inspection process as they are determined to supply the best possible no-compromise product. As with all Blockley radial tires, if these are not the best tires you have ever driven on, drive 1,000 miles or so and they'll refund.

**IN ORDER TO TAKE ADVANTAGE of this special, do not order directly from the website.
